

Through the Eyes of the Infant: Meeting the Needs of Maltreated Infants, Toddlers and Young Children

Sheri L. Hill, PhD
Early Childhood Policy Specialist

hill@earlychildhoodpolicy.com
www.earlychildhoodpolicy.com
Phone: 206.940.0892

Today's Topics

- Maltreated Children
 - What do the numbers say?
- The Developing Brain
 - What is the opportunity?
 - What do relationships do?
- The Developing Body
 - Stress and Trauma
- The Developing Child and Family
 - What can we do?
- Resources

PP Handout at:
www.earlychildhoodpolicy.com/courtrain.html

Young Children in Child Welfare: What do the numbers tell us?

Slide 3

National Baby Facts

- National abuse deaths
 - 79.8% <3 years old (FY 2008)
- National entries into foster care
 - 31% <3 years old (FY 2009)
- Infants and toddlers who encounter child welfare
 - Approximately half (35-68%) have developmental delays or disabilities.

Melmed, M (2011)
Graham, M.A. (2011)
F. Wulczyn & K.B. Hislop (2002)
Leslie et al. (2005)

Slide 4

Infants and Foster Care

Fiscal Year 2008

- 22% of new admissions
- Four times more likely to enter care
- More time in out-of-home care
- Longer stays
- Greatest disparities in admissions

■ Wulczyn, F, Chen, L, Collins, L & Ernst, M (2011) Zero to Three, (31:3)

Slide 5

The Developing Brain: What is the opportunity?

Slide 6

Brain Changing Prime Time

- Newborn – 400 grams
- 3 Year Old – 1100 grams
- Adult – 1500 grams

Image: www.brainconnection.com
© 1999 Scientific Learning Corporation

Slide 7

Experience Changes the Brain

- "...our experiences are what create the unique connections and mold the basic structure of each individual's brain."
 - Siegel, D., Hartzell, M. (2003)
- "Neurons that fire together, wire together." – Hebb's Law
 - Donald Hebb (1949)
- Today will change your brain!

Slide 8

Building "Normal"

"Normal is as normal does --- every day."
(Sheri Hill)

Slide 9

The Developing Brain: What do relationships do?

Slide 10

Early Relationships Are Important !!!

"Each achievement – language and learning, social development, the emergence of self-regulation – occurs in the context of close relationships with others."

- *From Neurons to Neighborhoods, National Academy of Science, 2000*

Slide 11

Slide 12

Skills and the Attachment System

- "A healthy, secure attachment generally means the child has been supported in:
 - learning coping skills,
 - helped to adapt to changes
 - learned to contain and soothe distress,
 - and learned to self-regulate their emotions and behaviors."
- *Healthy Attachment for Very Young Children in Foster Care* by JoAnne Solchany and Lisa Pilnik, pg 87.

Slide 13 Vol 27, No 6 Aug 2008, www.childlawpractice.org
(Available to download on Dr. Hill's website)

Skills Are Developed In Relationships

"The computational brain is controlled by the social brain"

Shonkoff, Seattle, 1/7/10

Slide 14

Relationships Set Biological Stress Systems

Stress Types

- Positive
- Tolerable
- Toxic

National Scientific Council on the Developing Child
www.developingchild.net

"The good, the bad and the ugly."
(Tronick)

Relationships Set the Stress Thermostat

http://developingchild.harvard.edu/library/multimedia/inbrief_series

The Developing Body:

What are the impacts of stress and trauma?

Slide 17

Violence and Breath

Community violence and parental conflict impacts early childhood lung function.

- Similar magnitude as:
 - Prenatal tobacco smoke exposure
 - Postnatal environmental tobacco smoke
 - Suglia, et al. (2008)

"Violence takes their breath away." (S.Hill)

Adverse Childhood Experiences are Common

Household Dysfunction	WA (2009) BRFSS	
▪ Substance Abuse	27%	31%
▪ Parental Separation/Divorce	23%	25%
▪ Mental Illness	17%	23%
▪ Mother Treated Violently	13%	16%
▪ Criminal Behavior/Incarceration	6%	7%

www.acestudy.org

Slide 19

ACES Increase Health Risks

Negative Adult Health Outcomes

The Health and Social Impact of Growing Up With Adverse Childhood Experiences:
The Human and Economic Costs of the Status Quo

Recommended Reading:
 The effects of childhood stress on health across the lifespan.
www.cdc.gov/ncipc/pub-res/pdf/Childhood_Stress.pdf

Slide 20

Relationships are Important!

"Early Life Experiences are Built Into Our Bodies (for Better or for Worse)"

Shonkoff, 1/7/10

Slide 21

The Developing Child and Family:

What are key things we need to do to meet the needs of maltreated young children and their families?

Slide 22

Recognize Relationship Changes Matter

"We need to change the words we use.....when we move a baby in care from one home to another home...or one placement to another placement... what we are really doing is....moving a baby from one relationship to another relationship."

Dorothy Henderson, LCSW

Slide 23

"Babies don't see legal or blood relationships -- they only see interpersonal relationships."

Hill, S. & Solchany J. (November, 2005) Mental Health Assessments for Infants and Toddlers. *ABA Child Law Practice*.

Available to download at: www.earlychildhoodpolicy.com/courttrain.html

Slide 24

Support Transitions

- Consider Transportation
- Keep it Friendly
- Transitional Objects
- Consistency Counts
- Flexibility Also Counts
 - Try, observe, try again

Tips for Transitioning Babies
www.ccyj.org/uploads/SECMaterials/SEC%20newsletter.pdf

Slide 26

Consider Relationship Experiences

Very young children with positive relationship experiences

"...will transfer those positive expectations to the foster mother, making it easier for the new caregiver to understand the baby's need."

Dozier, M. et.al (2001)

Slide 26

"..... have low expectations for nurturing care and behave in ways that do not elicit nurturance."

Dozier, M. et.al (2001). *Child Development*, 72(5).

Experience Matters

Positive or negative experiences can work both ways.

Apply to parents as well as non-parental caregivers.

Slide 28

Give Relationships Time

Attachment Hallmarks

Clear preferences for a small number of caregivers that emerges over the first year of life.

Slide 29

Ask: Who is stepping up to the relationship plate?

- Children need emotional care not custodial care
- Commitment is Critical
 - Dozier, M, Bick, J & Bernard, K (2011)

Slide 30

Address Caregiver Mental Health

- Only 34% of parents know a child can sense if they are angry or sad and can be affected by these moods
 - Parents under 25 (41%)
 - Mothers (39%)
 - African American and Hispanic Parents (28%)

ZERO TO THREE 2009 National Parent Survey

Slide 31

Keep an Eye on Development!

Less than half of likely qualified infants and toddlers have a Part C Individualized Family Service Plan (IFSP).

Casaneuva, Urato, Fraser, Lederman, & Katz (2010)
In Graham, M A (2011)

Slide 32

Address Young Children's Mental Health

- Key Capacities
 - Experience, regulate and express emotions
 - Form close and secure interpersonal relationships
 - Explore the environment and learn
- Health & Well-Being
 - Synonymous with healthy social-emotional development.

www.zerotothree.org

Slide 33

Consider and Treat Trauma

- What have they witnessed?
- What have they experienced?
 - One Event --- Many Experiences
 - Important to Grown-Ups ≠ Important to Babies

Many Faces of Trauma

<http://healingresources.info/index.htm>

Slide 34

Provide Relationship Based Treatment

Sometimes mental health intervention is needed to get things "right side up" for young children and their caregivers.

[Miami-Dade CPP](#)

Slide 35

Keep in Mind: Relationships Are Based in Culture

"A baby can be understood only through the cultural outlook of the adults interpreting him."

- Lieberman (1990)

Slide 36

Helping Families = Repairing Relationships

"The bottom line is that child welfare practices that are largely focused on child safety often are not structured to promote healthy development and the formation of a secure attachment."

Melmed, M E (2011). A Call to Action for Infants and Toddlers in Foster Care. *Zero to Three Journal*, vol. 31, no. 3, 29-34.

Slide 37

"It's about the kids. People talk about parents getting their children back. But really, this is about the children getting their parents back."

Judge Douglas F. Johnson of Omaha

(Healing the Youngest Children)

Slide 38
